

. . . Continued from Page 10

Andis Master and showed how to do all the oddball adjustments that this units needs to make it run right with the least amount of noise, but highest amount of power. He also went over Oster A5 clippers, and other Andis products.

Since Jason and I know all of you must be tired of hearing from us at these shows all the time, we decided to have a featured speaker in for this show. Joshua Freund was our choice at this event. He spoke on how to hammer set into blades, a technique the manufacturers use. Josh is the approved war-

rantee sharpener for Fromm and has won multiple awards at the certification events in our industry. Josh has been sharpening for over 11 years, is the authorized sharpener for Jaguar Shears as well, and offers training in professional salon shear sharpening. (See his ad on Page 7) Josh has proven himself to be an innovator in the industry and has been a big help to me personally when he helped me run a series of sharpness tests using different mediums to polish high-end styling shears.

Well, when I started writing this, it wasn't my intent to take up the whole issue; yet here we are. I hope this has been helpful. I also hope it inspires you to come to one of the shows Jason and I put on during the year. They are always fun, we hope informative, and we've been told this show is the best in the industry. Thanks to all that came. Like I said, we plan to do this show and tour again in the future, so keep an eye out for announcements about this. Also, we are working on our next event and will fill you in as soon as it's set up. I love this business and the friends I've made in it. I've said it before and I'll say it again, sharpeners are some of the most talented and innovative people I know. Thank you for letting men like Jason and myself be a part of such a fun and challenging industry.

The true entrepreneur is a doer, not a dreamer.
